Stacking Chairs

Space Saving and Versatile

.03 stacking chair

Elasticity

Maarten Van Severen Collection

The flexible polyurethane integral foam adapts to the body and provides, in combination with the sophisticated construction of the chair models, a comfortable upholstery effect.

Hal Collection

By Jasper Morrison

As a reinterpretation of the multifunctional shell chair, HAL comprises a versatile seating family with a clean contemporary look.

- Hal Re (recycled plastic seat shell)
- Hal Soft (upholstered seat)
- Hal Ply (wooden shell seat)

Hal Re

New 100% post-consumer plastic seat shell colors

Hal Ply

Available with stacking trolley and joining clips

Hal Soft

Upholstered stacking chairs

Hal Soft

Available in black powder-coating or aluminium base

Stackable up to 6

Protective shield to secure fabric from fraying when stacked.

Tip Ton RE

By Barber & Osgerby

The all-plastic chair Tip Ton can be tilted forward a few degrees from the normal position. This forward-tilt position improves circulation to the abdominal and back muscles.

- 100% recycled post consumer plastic
- New Color updates 2025

Atelier Chair

By TAF Studio for Artek

A universal wooden chair, Atelier Chair was designed for the new restaurant of the National Museum in Stockholm, which evokes an artist's atelier.

The chair possesses elegant details, such as the connecting bars which hug the front legs. The comfortable and versatile chair is equally at home at a desk, a dining table, a meeting room, a restaurant or in an auditorium.

Public Seating

611 Chair

By Alvar Aalto for Artek

Chair 611 brings together a solid birch frame with a woven fabric seat and backrest. Designed to offer comfort and practicality, the fabric webbing yields to the sitter, making the chair exceptionally comfortable.

Chair 611 can be easily reupholstered, which means the chair can have many life cycles. One of Alvar Aalto's first modern furniture designs, Chair 611 has been in continuous production ever since its creation. Suitable for almost any environment, Chair 611 stacks up to four chairs.

611 Chair

Duo tone colors

100% linen – sustainable, breathable

Domus Chair

By Ilmari Tapiovaara for Artek

A masterpiece of modern furniture design, the Domus Chair was created as part of a series of furniture for the Domus Academica student housing complex in Helsinki. Comfortable enough to allow sitting for long periods of time, the Domus Chair achieved great success internationally, becoming known as “The Finn Chair.” The characteristic short arms mean that the Domus Chair can be pulled close to a table, perfect for studying at a desk and dining, while offering the necessary support and comfort. Designed in 1946 by Ilmari Tapiovaara, Domus Chairs have been placed in homes and public spaces around the world ever since.
